### RDI will represent the Franco-Italian engine brand on the west coast

Marine engine and generator manufacturer Nanni has chosen RDI to represent the Franco-Italian brand on the US west coast.

Formed in 1990 as the west coast distributor for MAN high-speed engines for leisure and commercial vessels, RDI will provide Nanni products and services with nationwide deliveries, aftersales support, service facilities and genuine spare parts.

RDI has a service location in Costa Mesa, California and a temporary Alaska service centre during the fishing season. The company's technicians travel extensively.

Nanni is a Franco-Italian manufacturer of marine engines from 10hp-1,800hp and generators from 3.5 kW-421kW. With this new partnership Nanni expands its international network to more than 90 exclusive importers worldwide.
