

### Focus on Nanni's 2013 brand new products

TA EVO II 270 hp – The new engine from Nanni

The NEW T4 engine range has been developed based on Toyota's common rail fuel injection engine, which has already proved itself in commercial vehicles as well as existing Nanni Diesel engines.

The engine is ideally suited to a wide range of leisure boats, and is available with shaftline or sterndrive, from 200hp to 270hp.

15 kW Hybrid System – Nanni's latest edition to the Hybrid engine range

In 2007, Nanni Diesel launched their Hybrid engine, offering an environmentally friendly, low maintenance, silent & comfortable edition to the engine range.

In 2013, Nanni Diesel launch a new Hybrid, the 15kW – this has already been successfully installed into four barges.

**Both these products will be launched in September and will be on show at the Boat Shows around the world.**

### A new exclusive importer in Romania !

Nanni Diesel has recently signed an agreement with 'Boat & Yacht Service', part of the Romoffice Group. Based in Romania since 2010, 'Boat & Yacht Service' sell marine engines, spare parts and accessories for sail & power boats.

### Flash back on...

During the Kiev International Boat Show at the end of May, Nanni was represented by Marine Technics. **For more information, please [click here](#)**
