

## Export meeting

**Nanni is looking forward to welcome more than 30 worldwide participants to its export meeting on the 12th and 13th of June.**

Besides the presentation of Nanni's new products, after-sales, spare parts and applications are going to be central topics in the workshops taking place on the two days.

The export meeting is an important tradition at Nanni taking place every two years at the bay of Arcachon.

## Nanni expands its worldwide network

**Since the 1st June 2014 Nanni has a new importer to represent the brand in the Benelux countries:  
NPS Diesel BV from Ravenstein (Netherlands)**

NPS Diesel, founded in 1990, is the official importer and distributor of John Deere engines and accessories in the Benelux and Iceland. Furthermore, NPS Diesel also designs and manufactures Kilo-Pak marine generators. Having its headquarters in the Netherlands, the enterprise employs 23 people.

NPS Diesel will import Nanni diesel engines between 10 hp and 350 hp but also the products from Nanni's product division of diesel generators with a capacity ranging from 6 kW up to 134 kW.

With this new partnership Nanni expands its international network with more than 90 exclusive importers in the whole world.

## Journal des Entreprises: "Nanni is ready to highly compete in the market"

**The French business paper has visited Nanni and given account of its exceptional strategy**

Amalia Festa, CEO of Nanni Industries and Nanni have repeatedly been in the focus of the French press in an article in the "Journal des Entreprises".

In the interview with the paper, Amalia Festa describes the significant changes the market has experienced in the last years and how Nanni is successfully handling them: thanks to a worldwide network of services points and an unique product range. Therefore, Nanni is able to effectively meet the customer's needs and is ready for the future, ensures Sales Director Gregorio Passani.
