Nanni Trading Italy

Nanni will equip the next VanDutch boats produced by Couach!

Nanni begins a new partnership between the french shipyard Couach and the dutch brand VanDutch to provide MAN engines.

As official distributor of MAN engines for France and french speaking countries, Nanni will provide Couach with these engines: the MAN V12.1800 and the MAN V8.1200.

A powerfull partnership between Nanni and Couach!

Nanni launched exclusively its new products in Cannes!

Mrs Amalia Festa, CEO of Nanni, and Mr Gregorio Passani, Sales and Marketing Director of Nanni, launch their new engines range the 9th of September in World Premiere at the Yachting Festival of Cannes.

Two new NANNI engines: the N6.405 silver series and the N9.600 silver series

Innovative, powerful and strong, these two engines of 400 hp and 600 hp on John Deere engine base were completely developed and marinized by Nanni.

These engines were applauded by so many people (partners, customers, shipyards, journalists...) that came to discover the new Nanni products.
