

E-LEARNING

FACE TO FACE

LEVEL 1

*Introduction to the product range*

- Module 1 - Introducing Nanni Industries
- Module 2 - The diesel engine
- Module 3 - The engine range
- Module 4 - Fluids
- Module 5 - Injection technologies
- Module 6 - Electrical basics
- Module 7 - Engine installation
- Module 8 - Generator range

LEVEL 2

*Further training to the product range*

N2, N3, N4

- Module 1 - Introduction to engines and components
- Module 2 - Cooling system
- Module 3 - Lubrication system
- Module 4 - Injection system
- Module 5 - Electrical system

T4, T6, T8V

- Module 1 - Introduction to engines and components
- Module 2 - Cooling and lubrication systems
- Module 3 - Air and injection systems
- Module 4 - Electrical systems for mechanical engines
- Module 5 - Electrical systems for electronic engines
- Module 6 - Introduction to diagnostic tool

N5, N6, N9CR2, N13CR2

- Module 1 - Introduction to engines and components
- Module 2 - Cooling and lubrication systems
- Module 3 - Air and injection systems
- Module 4 - Electrical systems
- Module 5 - Diagnostic tool

N13CR3, N16CR3

- Module 1 - Introduction to engines and components
- Module 2 - Cooling and lubrication systems
- Module 3 - Air and injection systems
- Module 4 - Electrical systems
- Module 5 - Diagnostic tool

Generator Sets

- Module 1 - Powers
- Module 2 - Components
- Module 3 - Electrical risks

LEVEL 3

*Handling of the diagnostic tool*

- Module 1 - Electricity
- Module 2 - Diagnostic
